Subject: Notification of Data Management Contractor for the DASS OU2

Hi Alice,

As discussed, please see the attached notification, in writing, of our intent to utilize GHD for Lab Program and Data Management support. Please don't hesitate to let me know if you have any questions or require additional information.

In addition to the attached qualification summary, recall Tetra Tech is currently preparing the draft UFP-QAPP and so will include relevant information on our lab program, data management and GHD's role in that document as well, which we anticipate for submittal concurrent with the PDI WP in a couple months.

Also, with this notification we will update the org. chart in the draft PMP while we are currently revising for Agency comments.

Thanks.

Juan
